Investment focus

BB Biotech actively invests worldwide in fast growing companies developing and marketing innovative biotech drugs. At least 90% of its shareholdings must be in listed companies, while always holding more than 50% of its assets in equity investments. The target portfolio of BB Biotech will generally consist of 20 to 35 participations. Large positions will be taken in five to eight companies, the top holdings. Together they will account for no more than two-thirds of the portfolio and no single position will have a weighting greater than 25% of portfolio investments. Due to their substantial portfolio weighting, the top holdings should be generating both revenues and income. The portfolio's smaller participations are companies with promising drug candidates in their R&D pipelines. Investments are selected according to a thorough, multi-level due diligence process, with a particular focus placed on the analysis of financial parameters, the respective competitive environment, the development pipeline, the patent portfolio, and end-client perception. ESG factors are taken into consideration while implementing the aforementioned investment objectives.

Rolling 12-month-performance

Source: BB Biotech AG, 30.04.2024; all figures in EUR %, total return-methodology
Past performance is not a reliable indicator of future results and can be misleading. Changes in the rate of exchange may have an adverse effect on prices and incomes. All performance figures reflect the reinvestment of dividends and do not take into account the commissions and costs incurred on the issue and redemption of shares, if any. The reference benchmark is used for performance comparison purposes only (dividend reinvested). No benchmark is directly identical to the investment company, thus the performance of a benchmark is not a reliable indicator of future performance of BB Biotech it is compared to. There can be no assurance that a return will be achieved or that a substantial loss of capital will not be incurred.

Market commentary

In April BB Biotech's share price declined by 9.2% in CHF and the Net Asset Value declined by 6.6% in USD. The Nasdaq Biotech Index was down by 6.0% in April.

BB Biotech reported its first quarter result on April 26 with a net profit of CHF 260 mn, compared to a net loss of CHF 254 mn in the same period of 2023. In the first quarter, portfolio adjustments primarily involved capitalizing on gains from larger, established long-term holdings. Profit-taking activities targeted mid-to-larger entities such as Vertex, Argenx, Ionis, Intra-Cellular, Moderna, and Neurocrine, alongside minor tactical sales, generating a substantial cash influx of USD 166 mn. The quarter's capital expenditures included CHF 110 mn for dividend payouts and USD 70 mn for bolstering existing smaller positions and establishing a new stake in Annexon. Annexon, a clinical-stage company focuses on developing therapeutic candidates aimed at the complement system to tackle severe autoimmune disorders. BB Biotech engaged in capital increases for Celldex and Esperion. Further portfolio enhancements involved additions to Sage and Generation Bio, and profits from Crispr Therapeutics were reallocated to Beam Therapeutics.

Please find below selected highlights from a few of BB Biotech's portfolio companies:

Intra-Cellular Therapies (+3.8%, in USD) announced on April 16 positive topline results from Study 501 evaluating lumateperone 42 mg as an adjunctive therapy to antidepressants for the treatment of major depressive disorder (MDD). Topline results from their second Phase III study, Study 502, are anticipated late in the second quarter of this year. Lumateperone 42 mg given once daily as adjunctive therapy to antidepressants met the primary endpoint and secondary endpoints. Statistically significant efficacy was seen at the earliest time point tested (Week 1) and maintained throughout the study in both the primary and the key secondary endpoints.

Ionis Pharmaceuticals (-4.8%, in USD) announced on April 7 full results from the Phase III Balance study of Ionis' lead independent investigational medicine, olezarsen, for the treatment of adults with familial chylomicronemia syndrome (FCS). The olezarsen 80 mg monthly dose met the primary endpoint. Importantly, olezarsen reduced the incidence of acute pancreatitis (AP) events over the 12-month treatment period compared to placebo. Olezarsen also demonstrated a favorable safety and tolerability profile. Based on these data, Ionis is pursuing regulatory approval of olezarsen as a potential breakthrough treatment for adults with FCS.

Sage Therapeutics (-25.6%, in USD) announced April 17 topline results from PRECEDENT, a double-blind, placebo-controlled Phase II study of the investigational oral medicine dalzanemdor (SAGE-718) in people with mild cognitive impairment (MCI) in Parkinson's Disease (PD). The PRECEDENT study did not meet its primary endpoint of demonstrating statistically significant difference from baseline in participants treated with once-daily dalzanemdor versus placebo. Dalzanemdor (SAGE-718) was generally well-tolerated, and there were no new safety signals observed.

Outlook

Despite the challenging macro environment, the companies in BB Biotech's portfolio are very sound and they continue to make good progress. Significant news flow is expected over the course of the year: Alnylam will announce Phase III HELIOS-B results for vutrisiran in TTR cardiomyopathy patients. Agios is expected to release ENERGIZE-T results for Pylkynd in transfusion-dependent alpha- and beta-thalassemia patients. Macrogenics will give an update on its Phase II TAMARACK trial of vobra duo in metastatic castration-resistant prostate cancer patients. Revolution Medicines is expected to publish data on RMC-6236, a multi KRAS inhibitor. Moderna's RSV vaccine mRNA-1345 should be granted approval during the second quarter of 2024, in time for the start of the fall vaccination season.

For illustrative purposes only. Holdings and allocations are subject to change. Any reference to a specific company or security does not constitute a recommendation to buy, sell, hold or directly invest in the company or securities. Where the Sub-Fund is denominated in a currency other than an investor's base currency, changes in the rate of exchange may have an adverse effect on price and income.

Risk and return profile

The investment company's objective is to generate attractive and competitive capital growth in the long term. It is therefore particularly suited to investors with an investment horizon of at least 5 years who want to selectively diversify their portfolio with investments in the biotechnology sector and who are willing to accept the equity risks typical of this sector.

Target market

The investment company is suitable for retail and professional investors in Switzerland as well as for professional and semi-professional investors in Germany and professional investors in the UK.

Bellevue Asset Management AG is responsible for portfolio management, finance, marketing, sales and administration of BB Biotech AG.

Important information

This marketing document relates to BB Biotech AG (hereinafter the "Company"). In Switzerland, the Company is structured as a holding company with fixed capital (SICAF, cf. Art. 110 ff. of the Swiss Collective Investment Schemes Act, "CISA"), but it is not subject to the CISA due to its listing on the SIX Swiss Exchange and the German Stock Exchange (Art. 2 para. 3 and Art. 110 para. 1c CISA); instead the Company is subject to the supervision of the respective stock exchange authorities. This marketing document is issued by Bellevue Asset Management AG, which is an authorized asset manager subject to the supervision of the Swiss Financial Market Supervisory Authority (FINMA) and which acts as the Investment Manager of the Company.

This communication is issued in the UK by Bellevue Asset Management (UK) Ltd, which is authorised and regulated by the Financial Conduct Authority (FRN: 825152). Consequently, this communication is only made available to professional clients and eligible counterparties as defined by the FCA. The rules made under the Financial Services and Markets Act 2000 for the protection of retail clients may not apply. The Financial Services Compensation Scheme is unlikely to be available.

The prospectus, statutes, the annual and quarterly reports, share price information and other data about the Company can be obtained free of charge in English and German from the Company, BB Biotech AG, Schwertstrasse 6, CH-8200 Schaffhausen, from the Investment Manager of the Company, Bellevue Asset Management AG, Seestrasse 16, CH-8700 Küsnacht, or online at www.bbbiotech.ch.

This document is neither directed to, nor intended for distribution to or use by, any person or entity who is a citizen or resident of any locality, state, country or jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation. In particular, it is not intended for distribution to any US person within the meaning of Regulation S of the US Securities Act of 1933, as amended. The information and data presented in this document are not to be considered as an offer to buy or sell or an invitation to buy any securities or financial instruments. The information, opinions and estimates contained in this document reflect a judgment at the original date of release and are subject to change without notice. This information does not take into account the specific or future investment objectives, financial or tax situation or particular needs of any specific recipient and in particular tax treatment depends on individual circumstances and may be subject to change. This document is not to be relied upon in substitution for the exercise of independent judgment. Before making an investment decision, investors are recommended to ascertain if this investment is suitable for them in the light of their financial knowledge and experience, investment goals and financial situation, or to obtain specific advice from an industry professional. The details and opinions contained in this document are not to be considered as a recommendation or as investment advice.

Every investment involves risk, especially with regard to fluctuations in value and return, and investors' capital may be at risk. If the currency of a financial product is different from your reference currency, the return can increase or decrease as a result of currency fluctuations. Past performance is not an indicator of the current or future performance. Any benchmarks/indices cited herein are provided for information purposes only. No benchmark/index is directly comparable to the investment objectives, strategy or the investment universe of the Company. The performance of a benchmark is not an indicator of the Company's past or future performance. Financial transactions should only be undertaken after having carefully studied the current valid prospectus and they are only valid on the basis of the latest version of the prospectus and available annual and quarterly reports. Please take note of the risk factors.
