MARKET REVIEW

The Nasdaq Biotech Index (NBI) ended the month of March down -1.2% in USD. BB Biotech's NAV was down -3.6% in USD, -2.3 in CHF and down -4.4% in EUR. BB Biotech's share price was down -0.2% in USD, up +1.3% in CHF and down -0.4% in EUR.

On March 13, 2018, BB Biotech AG held its annual general meeting (AGM) in Schaffhausen. Shareholders voted in favour of all proposals and approved the regular dividend of CHF 3.30 that was paid out on March 19, 2018 and is subject to 35% withholding tax in Switzerland.

Ionis (-11.6%, in USD) announced a licensing agreement on their ATTR products with affiliate Akcea (+48.5%, in USD) for global rights to commercialize inotersen and its LICA version (AKCEA-TTR_LRx). Under the agreement, Ionis will receive an upfront of USD 150 mn in Akcea shares and will purchase an additional USD 200 mn of Akcea stock to support commercialization.

Neurocrine (-1.4%, in USD) and its partner AbbVie announced positive data from the second Phase III study with Elagolix in uterine fibroids. The trial met the primary efficacy endpoint and all ranked secondary endpoints. Elagolix has a Q2:18 PDUFA date for endometriosis pain, and is expected to file for approval in uterine fibroid bleeding in 2019.

Esperion (-6.0%, in USD) reported results of the first Phase III trial of bempedoic acid, demonstrating 28% placebo-adjusted LDL-C lowering. The study met the primary endpoint and showed no imbalance in serious adverse events.

Voyager (-36.4%, in USD) announced longer-term data from ongoing Phase Ib trial of VY-AADC for advanced Parkinson's disease. The Phase Ib open-label trial includes 15 patients and VY-AADC generated durable improvements in various measures of motor function.

OUTLOOK

BB Biotech's ongoing investment strategy mitigates potential changes in US healthcare policy. Our focus on innovative therapeutics addressing substantial unmet medical needs continues to be the basis for pricing power in a more complex reimbursement environment. Most of our portfolio companies are expected to make announcements on clinical trials in 2018 that should move their stock prices and hence drive BB Biotech's stock performance.

INVESTMENT FOCUS

BB Biotech aims to achieve an average annual double-digit return over the long term, thus outperforming the broad market indices by a significant margin.

BB Biotech invests worldwide in fast growing companies developing and marketing innovative biotech drugs. At least 90% of its shareholdings must be in listed companies. Positions in emerging-market biotech companies will be taken on a selective basis.

The target portfolio of BB Biotech will generally consist of 20 to 35 participations. Large positions will be taken in five to eight companies, the top holdings. Together they will account for no more than two-thirds of the portfolio and no single position will have a weighting greater than 25% of portfolio investments. Due to their substantial portfolio weighting, the top holdings should be generating both revenues and income. The portfolio's smaller participations are companies with promising drug candidates in their R&D pipelines.

During the investment selection process BB Biotech relies on the well established experience of its Board of Directors and the fundamental analyses by the experienced management team of Bellevue Asset Management Group, with access to a network of physicians and specialists for the sectors in question. In doing so, a detailed financial model is created for each holding, which guarantees a compelling illustration of the potential for doubling asset values in a period of four years. This potential is based on the power for innovation, new products for serious or significant illnesses and outstanding management.

INVESTMENT SUITABILITY

The investment company's objective is to generate attractive and competitive capital growth in the long term. It is therefore particularly suited to investors with an investment horizon of at least 5 years who want to selectively diversify their portfolio with investments in the biotechnology sector and who are willing to accept the equity risks typical of this sector.
